

## CENTACARE

The Catholic Archdiocese of Canberra and Goulburn have housing developments which have included accessible and adaptable aged care principles for over fifteen years and have provided support to the aged in parishes in the ACT section of the Archdiocese.

Centacare is an agency of the Catholic Archdiocese of Canberra and Goulburn and was established in 1957.

Centacare who manage the Villas is a community service agency that provides support for many people in our local community.

In recent years Centacare has responded in a variety of ways including managing aged care villas and helping with the increasing needs of our seniors. Residents of the Villas are invited to local monthly sessions which provide information on remaining independent. Through a Home and Community Care Program some help at home and social support is available to eligible people.
